Your newer Kobo with OverDrive allows you to borrow up to five free eBooks at a time right from your device.

Setup the Kobo to borrow books

1. On the **Home** screen, tap the **menu** ☰ in the upper-left corner.
2. Tap **Settings**
3. Tap **OverDrive**
4. Tap **Get started**
5. Tap **Sign in to OverDrive**
6. Find your library on the **Find a public library page**. Tap your library's name to sign in
7. Sign in with your library card, an OverDrive account, or Facebook
8. Select **Browse** to start exploring Kobo's store, or select **Search** to find a specific title
9. Tap an eBook to open its details page, then tap *** to borrow it or place it on hold (if owned by your library)

Borrowed eBooks will appear in the **Books section** of your Kobo, just like purchased eBooks. Library eBooks are automatically returned to your library at the end of the lending period, so you never have to worry about late fees.

In addition to borrowing eBooks from your Kobo, you can:

- Filter the Kobo store so you only see eBooks your library owns
- Browse your library's featured collections
- Renew library eBooks using the **Request again** option (in the book actions menu). This will let you borrow the eBook again immediately after its lending period expires (if there are no existing holds), or place you on the title's wait list (if there are existing holds)
- Return library eBooks early (before the end of the lending period)
