In-Library vs. In-Community Program Participants

Support for Students & Teachers

- Enhance the reach & impact of Homework Help Tutoring
- Streamline school class tour booking process
- Improve inclusivity by offering additional programs & activities on days when independent & private schools don't have classes
- Improve topic search forms and processes for teacher support

Homework Help Enhancement

- Homework Help free tutoring program offering support for students grades 3-12 who need help with English, Math, or Sciences
- 20 sessions per week accommodating up to 60 students; 120 participants registered in 2024, representing approximately \$70,000 in private tutoring services
- 96% of survey respondents had either not been able to access affordable tutoring, or had to discontinue use due to the cost or availability of tutoring services
- 85% of respondents reported improvement in their child's academic performance and/or confidence after attending Homework Help

“

“My daughter’s English test scores were consistently better on the weeks she attended tutoring and she was able to grasp math concepts that she was unable to learn at school. Thank you very much for putting on the program.”

“My daughter needs additional support with English and Math, and tutoring is not affordable for us. This program was something she looks forward to as she requires more one-on-one and a quiet environment. Her reading improved, and her confidence. I value this program and hope it continues.”

The library located in the center of the city attracts attention with its rich collection of books, magazines and games. It's a complete community place with desks, computers, and children's areas. It is admirable that all the staff always approach the guests with a smile and help them.

Welcome!

"We welcome all who wish to read, connect, and share--with others, with their community, in a free and safe space."
